To Whom It May Concern:

Stone Legends has been our major cast stone supplier for the last 6 years. We have come to depend on them and our customers (general contractors) recognize the exceptional quality and timely delivery of their product.

Our projects run smoothly when we rely on Stone Legends for our cast stone needs. Stone Legends has both quality controls and location controls in place that yield superior products and enables them to know exactly where in their process any piece of stone will be. In our opinion, this is a unique ability that sets them apart from the competition.

In the unlikely event of any problems on their side, they have gone above and beyond what is expected to correct any discrepancies.
